Medipure® CR

Cooling Cream

Brand Name: Medipure CR

Class-2 pharmaceutical product

Antipruritic and Anti-inflammatory Drugs

The sensitive area is a part of the body where the skin is thin and prone to itching due to slight irritation or allergic reactions. Medipure CR keeps sensitive areas clean with lidocaine and diphenhydramine hydrochloride, which relieve itching, and isopropyl methylphenol, which suppresses the growth of germs. This non-steroidal cream provides a cooling sensation with L-menthol and has excellent spreadability.

⚠ PRECAUTIONS

CONSULT

1. Consult a doctor, pharmacist, or registered pharmacy before use if

- (1) you are under the care of a doctor
- (2) you have ever had an allergic reaction to a medical product, etc.
- (3) you have severe weeping eczema or erosions

2. If any of the following symptoms occur after medication, they may be adverse reactions, so discontinue use immediately, and consult a doctor, pharmacist or registered pharmacy, showing this Package Insert:

Affected area	Symptoms
Skin	rash/redness, itching, swelling

3. If the symptoms are not alleviated after 5 to 6 days of treatment, discontinue use of medication, and consult a doctor, pharmacist or registered pharmacy, showing this Package Insert
