# Medipure® ST

## Steroid Ointment

Brand Name: Medipure ST

Class-**2** pharmaceutical product

Therapeutic agent for eczema and dermatitis;  
synthetic corticosteroid; dermal agents

Eczema and dermatitis are skin conditions that result from inflammation due to irritation from foreign substances or allergic reactions; the affected area typically becomes red and swollen, develops bumps, and is accompanied by itching. Medipure ST suppresses inflammation in conditions, such as eczema and dermatitis, through the combined action of its main ingredients: prednisolone (a synthetic corticosteroid) and glycyrrhetic acid (an anti-inflammatory ingredient). This coloring-free, fragrance-free, and preservative-free ointment is also suitable for use on the thin, easily permeable skin of sensitive areas.

### ⚠ PRECAUTIONS

#### ⊗ DON'TS

[Failure to follow these precautions may worsen the clinical condition or cause adverse reactions.]

##### 1. Do not apply to the following areas

Chicken pox (varicella), athlete's foot, ringworm, etc. or suppurated site

##### 2. Do not apply to a wide area of the face

##### 3. Avoid prolonged use.

#### CONSULT

##### 1. Consult a doctor, pharmacist, or registered pharmacy before use if

- (1) you are under the care of a doctor
- (2) you are pregnant or suspected of being pregnant
- (3) you have ever had an allergic reaction to a medical product, etc.
- (4) you have a large area affected by the skin disease
- (5) you have severe weeping eczema or erosions

##### 2. If any of the following symptoms occur after medication, they may be adverse reactions, so discontinue use immediately, and consult a doctor, pharmacist or registered pharmacy, showing this Package Insert:

Affected area	Symptoms
Skin	Rash/redness; itching; swelling; eruption; dry sensation; irritation, hot sensation; burning sensation
Skin (affected)	Trichophytosis such as athlete's foot, ringworm, etc., acne, suppurative symptoms or continuous irritation

##### 3. If the symptoms are not alleviated after 5 to 6 days of treatment, discontinue use of medication, and consult a doctor, pharmacist, or registered pharmacy, showing this Package Insert

#### INDICATIONS

Itching, eruption, eczema, dermatitis, insect bite, heat rash, hives, and chilblains

#### DOSAGE AND ADMINISTRATION

Apply an appropriate amount to the affected area once to 4 times per day.

#### <Precautions of Dosage and Administration>

- (1) Strictly follow the DOSAGE AND ADMINISTRATION.
- (2) When allowing children to use the medicine, a guardian must be present to watch and tell them how to use it.
- (3) Avoid contact with eyes. In case of contact with eyes, rinse immediately with water or lukewarm water.  
If the symptoms are severe, seek an ophthalmologist for medical treatment.
- (4) This medication is only for external use.

#### COMPOSITION Each 1 g contains:

Ingredients	Amount	Purpose
Prednisolone (synthetic corticosteroid)	2.5 mg	Suppress inflammation and swelling of the skin.
Glycyrrhetic acid	5 mg	Suppress inflammation and swelling of the skin.

Additives: Sorbitan stearate, stearic acid, isopropyl myristate, squalane, paraffin, and petrolatum

#### PRECAUTIONS FOR STORAGE AND HANDLING

- (1) Close cap tightly and store in a cool and dry place, away from direct sunlight.
- (2) Keep out of reach of children.
- (3) Do not transfer the medicine to a different container.  
(It may lead to misuse or alter the quality of the drug.)
- (4) Do not use after the expiration date.
